A BRIEF INTRODUCTION

I am a Ph.D. candidate in Computer Science at the Hong Kong University of Science and Technology, Guangzhou campus. I am supervised by Prof. Guang Zhang from HKUST-GZ, and Prof. Zhong Li from MSRA. My research focuses on **Data Centric Artificial Intelligence**, particularly on understanding the mechanisms of **large language models (LLMs)** and exploring their applications in domains such as finance.

I have published at venues including **ACL 2023**, **ACL 2025**, and **ICAIF**, with additional manuscripts under review at **ICLR**, **ACL Rolling Review (ARR)**, and **ICASSP**. I also serve as a reviewer for leading conferences such as **NeurIPS**, **ICLR**, and **AAAI**.
